

Gowtham Namuri

Senior Software Engineer

As a seasoned iOS Application Developer with a strong foundation in computer science and hands-on experience in leading development teams, I am passionate about creating impactful digital solutions. My goal is to contribute to innovative projects that elevate user experiences and set new standards in the software industry. I am particularly drawn to roles that challenge my technical prowess while allowing me to mentor and inspire fellow engineers. With a commitment to continuous learning and excellence, I aim to align with a company that values creativity, quality, and a forward-thinking approach to technology.

PROFESSIONAL SUMMARY

- Over 8 years of expertise in iOS application development, proficient in Swift, Objective C, and SwiftUI, demonstrating deep technical proficiency.
- Proven track record of leading iOS development teams and providing mentorship, fostering an environment of growth and innovation.
- Expertise in the end-to-end development cycle, including UI design, coding, testing, and deployment of applications to the App Store.
- Strong experience with a range of development tools and platforms, such as Xcode, Android Studio, GitHub, and BitBucket.
- Skilled in implementing robust code quality practices, including Test Driven Development, UI-Testing, and adherence to SOLID principles.
- Adept at integrating modern backend technologies, such as AWS and Firebase, to build scalable and responsive applications.
- Efficient project management abilities, utilizing tools like JIRA and Confluence to streamline workflow and enhance team collaboration.

TECHNICAL SKILLS

WORK EXPERIENCE

Senior Software Engineer

EPAM Systems (Bangalore) *(Jun 2024 - Present)*

Responsible for the full software development lifecycle, from conceptualization and design to development, testing, and deployment of enterprise-level iOS applications.

Designed and developed critical components of the LoungeBoss and LoungeOS iOS applications for American Express, focusing on delivering a seamless and secure airport lounge access experience.

Collaborated closely with product managers, designers, and backend engineers to ensure the successful implementation and deployment of the applications.

Prioritized secure coding practices and adhered to industry standards to safeguard sensitive user data and ensure application security.

Working with American Express

Senior Software Engineer

Altimetrik India Private Limited *(Aug 2023 - May 2024)*

Led development efforts for high-security features in the PayPal app, showcasing advanced technical leadership.

- Developed key features for PayPal's iOS application, enhancing user login experience and security.
- Collaborated with the Identity team to implement seamless authentication processes.
- Maintained critical security features, ensuring token-based login-free access to the app.

Achievements:

Successfully improved login process reliability, resulting in a 15% decrease in user-reported issues.

Senior Software Engineer

Y Media Labs *(Apr 2021 - Aug 2023)*

Directed an iOS development team, contributing to strategic planning and project execution.

- Designed and developed new iOS applications, leading a team of developers.
- Provided mentorship to junior iOS developers, fostering a collaborative team environment.
- Oversaw the deployment of applications to the App Store, ensuring compliance with Apple's guidelines.

Achievements:

Launched multiple successful applications, recognized for excellence in design and user experience.

Senior Software Engineer

Tarams Technologies *(Sep 2018 - Mar 2021)*

Managed the full app lifecycle from development to deployment, demonstrating strong project management skills.

- Spearheaded the development and deployment of innovative iOS applications.
- Optimized application performance, leading to enhanced user satisfaction.
- Collaborated closely with cross-functional teams to align app development with client requirements.

Achievements:

Achieved a 20% increase in app download rates post-optimization initiatives.

Software Engineer

Nichepro Technologies *(Jan 2017 - Aug 2018)*

Contributed to the development of client projects, showcasing a keen eye for detail and coding excellence.

- Implemented new features and bug fixes for iOS applications at Tarams Technologies.
- Participated in code reviews and maintained high standards of code quality.
- Supported the integration of applications with back-end services.

Achievements:

Recognized for outstanding problem-solving skills leading to a reduction in application downtime by 30%.

Software Engineer

Helix Tech Info Systems Private Limited (May 2016 - Jan 2017)

Engaged in the full development cycle of iOS applications, honing technical and analytical skills.

- Developed iOS applications, focusing on user-centric design and functionality.
- Worked closely with senior developers to refine application features.
- Assisted in the iterative testing and debugging of new applications.

Achievements:

Contributed to the launch of a pioneering app, receiving positive feedback for ease of use and stability.

EDUCATION

M.Sc in Computer Science (2022 - present)

Scaler Neovarsity and Woolf

B.Tech in Computer-Science and Engineering (2010 - 2014)

KSRMCE

Intermediate in MPC (2008 - 2010)

Narayana Jr College

ACHIEVEMENTS

- Successfully led the iOS team for the Kaiser Permanente healthcare app, significantly improving patient experience by integrating facility-based beacon technology.
- Contributed to the development of the PayPal app's secure login features, enhancing user convenience and app security.

PROJECTS**Kaiser Permanente**

- Leading the iOS team
- Developing key features
- Implementing beacon technology
- Ensuring secure data handling
- Optimizing app performance

PayPal

- Developing login features
- Enhancing security measures
- Maintaining user identity and access management
- Collaborating with cross-functional teams

AppLogz (Private SDK)

- Designing SDK architecture
- Developing logging functionalities
- Handling local data storage
- Ensuring reliable data transmission

American Express - LoungeOS

- Developed and deployed key features of the LoungeOS iOS application, a B2B solution streamlining airport lounge access for American Express cardholders.
- Contributed to enhancing the user experience by simplifying the check-in process, improving lounge discovery, and providing relevant, timely information to travelers.
- Successfully delivered a secure and reliable platform, ensuring a seamless and premium experience for American Express cardholders.

SKILLS

Soft Skills: Leadership, Problem-solving, Teamwork, Communication

HOBBIES

Playing Badminton - fostering strategic thinking and agility., Reading Books - staying informed on the latest industry trends and innovations.
